Out in the woods, unspoken horror of  
Ancient malignance awakes  
Leaving it's hideout to please the hunger  
Following the winds of the north

Cursed is the woodlands and cursed is thy land  
The edge of the forest is marking  
The line to the ground of red  
So violent and vicious, so cruel and malign

Once there was peace and silence around  
A valley of green under skies so blue  
All is lost, children are raised  
With tales of fear and tales about you

I need a miracle

[Bridge:]  
Crimson eyes are burning  
In the darkness of the woods  
I must bring deliverance  
Oh if I only could

[Chorus:]  
When hell awakes  
In the gardens inside of my heart  
Unholy embrace  
It's killing the innocence  
Demons are rising, they're haunting my soul  
The devil is laughing, he's seeking control  
There's a poisoned thorn  
In the gardens inside my heart  
When hell awakes

This was the land of the golden seas  
Freedom and light surrounding me  
Now I'm aware that nothing is forever  
A darkening mist infected our soil

Ages has past since I drew my first breath  
The future was turning in the absence of death  
Evil is rising, I saw it's rebirth

Paradise, now it's hell on earth

What is the key to relock this door?  
What is the cause, there must be more  
Stories told in the ancient fore  
Oh, it has happened before

[Bridge]

[Chorus]

I have been standing the test of time  
Here I am now, this life is mine  
Throughout the woods into the darkest night  
I'm on the way to end this mortal fight

I have the clue, the certain sign  
The moon is full and the stars align  
Bearer of sorrow, sealer of fate  
I'm taking it back, it's never too late

[Bridge]

[Chorus]
