Life, shades of blue
Love was bittersweet till I found you
Time after time
Feelings disappear

Friend, when we met
Life was like a joke I didn't get
But when you're holding me
You make me understand
What this heart is for

Now, we've nothing but the radio on
We are dancing to a new emotion
We've got nothing but the radio on
We're making love in slow motion

Ooh, one night like this
Can melt away the lonely emptiness
Each perfect kiss
Answers every wish
I wish
(I wish)

There in your eyes
I can see the years of tears I've cried
And though the waiting game is all I ever play
It's time to let love in

Now, we've nothing but the radio on
We are dancing to a new emotion
We've got nothing but the radio on
We're making love in slow motion

Ooh
Ohh ohh
Hey baby
Ooh ooh ooh
Ohh ohh
Ohh ohh ohh
Hey baby
Ohh

When nothing is right
We can't go wrong
And so tonight
They're playing our song
We're kiss to kiss
And heart to heart
And the music never stops
Once the love starts

We've got nothing but the radio on
Hey baby
Nothing but the radio on
Ohh
(Love in slow motion)
Ooh, nothing but the radio on
We are dancing to a new emotion
Hey baby
(Nothing but the radio on)
Ohh, making love, making love
(Love in slow motion)

We've got
(Nothing but the radio on)
Nothing but the radio on
Don't you know we've got
(Nothing but the radio on)
Nothing but the radio on
