I have to admit
That things aren't
Going too well
For you and me

I have to admit
That life would
Be better
If we lived seperately

No this can't be true,
If I'm not living
With you, no,
No, no, no, no

Then you're running off
To another part of town
Then you're flying flying
Falling down

But I don't wanna
Leave you tonight
And maybe things
Aren't right

Never have I thought
That I'll be leaving you
Never in my worst nightmare
Would I want to leave you

But we're like
Fire and water
I'm like the fire
You're like the water

You're always
Washing my dreams away
You're always breaking
My heart over again

We're always like
Fire and water

I'm the fire
You're the water

You washed my dream away
I don't have another dream
I want to live with you
Even though I caught you clean

But I want
To go
Away from
Here

I can't stand
You
Being
There

Breaking my heart
Breaking my soul
Breaking everything
That you stole

Never have I thought
That I'll be leaving you
Never in my worst nightmare
Would I want to leave you

We're always like
Fire and water
I'm the fire
You're the water

Never have I thought
That I'll be leaving you
Never in my worst nightmare
Would I want to leave you

We're always like
Fire and water
I'm the fire
You're the water
