I'm so sad I'm happy  
I'm so sad I'm happy  
I'm so sad I'm happy  
I'm so sad I'm happy

Yes she broke my heart  
And went in her own ways  
She left me by myself  
Now she's hanging with someone else

And now I got mysty eyes  
Now the time flies  
And then my heart cries  
Now I can't say anymore goodbyes

I know you love me  
I know you dare  
So call me  
And I'll be there

I'm so sad I'm happy  
When she went away  
I can't remember what we've done  
Cause she took my memoray

She left me in peices  
My saddness increases  
When you're not with me  
I am not so happy

But in this case  
My heart will race  
I am crazy sad  
Then I forgot all the memories we had

I know you love me  
I know you dare  
So call me  
And I'll be there

I'm so sad I'm happy  
When she went away

I can't remember what we've done  
Cause she took my memoray

Your heart will race  
Can't keep up  
I'm not at your pace  
Now I fell behind

You were supposed to be with me  
Now you are gone  
Broke my heart and set apart  
And take the saddness with you

I know you love me  
I know you dare  
So call me  
And I'll be there

I'm so sad I'm happy  
When she went away  
I can't remember what we've done  
Cause she took my memoray

I know you love me  
I know you dare  
So call me  
And I'll be there

I'm so sad I'm happy  
When she went away  
I can't remember what we've done  
Cause she took my memoray

I'm so sad I'm happy  
I'm so sad I'm happy  
I'm so sad I'm happy  
I'm so sad I'm happy
