The sun talked to me before
It talked when I was felling sore
And I'm not trying to lie
So I said to the sun my last goodbye

Now the sun and the moon
Will finally meet way too soon
And we'll never be sad
They met, it's not too bad

The moon talked to me
It's shining in the silent night
It's shadow is gleaming through me
When these eyes see the moonlight

The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me

The sun talked to me before
It talked when I was felling sore
And I'm not trying to lie
So I said to the sun my last goodbye

The moon talked to me
It's shining in the silent night
It's shadow is gleaming through me
When these eyes see the moonlight

Now the sun and the moon
Will finally meet way too soon
And we'll never be sad
They met, it's not too bad

The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me

They just said a word, and left
To go to another world

The sun's heat in the light
The moon's round at late night

It's true, the sun
Talked to me
That moon also talked to me
Last night

Now the sun and the moon
Will finally meet way too soon
And we'll never be sad
They met, it's not too bad

The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me

They just said a word, and left
To go to another world
The sun's heat in the light
The moon's round at late night

It's true, the sun
Talked to me
That moon also talked to me
Last night

Now the sun and the moon
Will finally meet way too soon
And we'll never be sad
They met, it's not too bad

The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me
The sun and moon talked to me
