

## Savan "Where To Go"

Visit "[Where To Go](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I was just wondering  
Every night  
Every day  
When I am awake

I just thought  
About that  
I was wondering  
Why I got hit by the bat

I lost the path  
I lost the way  
I lost everything  
That made my life okay

So where to go  
With all this fears  
In our lives  
So where to go  
With all this tears  
In our eyes

So where do we go  
In this big world  
No one I know  
So many people just go

We lost our place  
We lost our love  
We lost everything  
Then we go above

I lost the path  
I lost the way  
I lost everything  
That made my life okay

So where to go  
With all this fears  
In our lives  
So where to go  
With all this tears

In our eyes

We cannot choose  
The path we take  
We cannot laugh  
So we'll fake

This is not good  
Cause you are gone  
You have left my life  
Right after dawn

I lost the path  
I lost the way  
I lost everything  
That made my life okay

So where to go  
With all this fears  
In our lives  
So where to go  
With all this tears  
In our eyes

I lost the path  
I lost the way  
I lost everything  
That made my life okay

So where to go  
With all this fears  
In our lives  
So where to go  
With all this tears  
In our eyes
