Lay the leaven of destruction
Saw the discord of hatred and wrath
Mankind festering
Rape the humanity
All this miserable human race
Welcome the invasion
Killed as one by one
See your impure nations
Falling
Our advanced androids
Kill your species for fun
Using our minds
Only
Lay the leaven of destruction
Saw the discord of hatred and wrath
Mankind festering
Rape the humanity
All this miserable human race
Welcome the invasion
Killed as one by one
See your impure nations
Falling
Our advanced androids
Kill your species for fun
Using our minds
Only
