ok stop
come on tell me what you've got
it's not a lot
so you might as well give up
suck it in
cause you're going nowhere fast
you've lost this one
now you can kiss my arse

you will be the first to see me now
and you'll never let it go

cause you talk to me
you know what for
so now give it up
you've made your choice
you keep talking to me
i've had enough
so just shut it up
i hate your voice

i said it once
i'll say it now
so bring it on
i'll take you down
everyone that meets you
everyone that knows you
can see that you're a fake
somehow we will show you

you will be the first to see me now

and you'll never let it go

cause you talk to me
you know what for
so now give it up
you've made your choice
you keep talking to me
i've had enough
so just shut it up
i hate your voice

say hey hey hey give it up give it up now
so we can talk about it and then forget about it
back to back and left to right
gonna take this chance to start the fight
and you'll run through this scene
without warning tonight

you talk to me
you know what for
so now give it up
you've made your choice
you keep talking to me
i've had enough
so just shut it up
i hate your voice

so just look at me now
