You think you got everyone where you want
You're trying way too hard to follow the scene as if
As if they were setting you rules
You better start thinking for yourself
Cause there playing you off for fools
I guess it's clear that's all you are

Everybody knows
You try your best to fit in and it shows
So just let go and the you'll know
Who you really are so just let go
Cause everybody knows that this is all for show

You wonder what it's like to be someone

And that you want so badly to belong
Just believe what you say when you sing along

You think you got everyone where you want
Where you want
