Yeah sometimes it feels as if
The weight of the world
Will snap my neck in two
But then I remember you

I wish that everyone knew, everything you've gone
through
I hope you know
I hope you know now
I hope you know your making them proud
I wish that everyone knew, everything you've gone
through
I hope you know

Yeah some times it feels as if
I'm lost without a clue
But then I remember you
And it feels like home (YES IT IS MADGE)

Never giving up never giving up
Never giving up never giving up never

(I know you're never giving up
Doesn't surprise me with you
You seem to have the strength and determination
Never to loose
Even when it seems luck is against you)

Never giving up never giving up
Never giving up never giving up never
