

Save Your Breath "Your Oven's On Fire"

Visit "[Your Oven's On Fire](#)" on MotoLyrics.com

It's hard just breathing, feels like we're wasting away,
Just keep on dreaming, never let that fade to grey

This place is holding you back,
Your worth so much more than that,
You can't settle and kick back,
To make the most of this you've gotta split

So keep stacking your chips up,
We're putting everything on good luck,
Cos' with the way things are moving on,
I don't care if it all seems wrong

So don't look back and keep your chin up,
In a one horse town you don't wanna get stuck,
All the doubt helped us write this song,
It feels like it's time to move on

We're moving on...

We gotta make it out, we gotta make it out of this town,
We gotta make it out, we gotta make it out of this town

(Just keep on dreaming, I'm sick of wasting away)
