I just figured you out  
Quicker than you know yourself  
Quicker than you know yourself  
Woah...

As I start from scratch tonight  
To take you home and make you mine  
I'll just stay and do what's right  
Coz I trapped you with

Love love love love love

Hopes up  
Level on up here baby  
Never gonna let you hate me  
We're caught up in what we all call  
Love yeah  
I've been thinking lately  
Thinking of my baby  
We're caught up in what we all call...

I just figured you out  
Faster than you know yourself  
Faster than anyone else  
Yeah...

Desperate to come alive  
Your eyes so bright they leave me blind  
I'll just stay and do what's right  
Coz I trapped you with

Love love love love love

Hopes up  
Level on up here baby  
Never gonna let you hate me  
We're caught up in what we all call  
Love yeah  
I've been thinking lately  
Thinking of my baby  
We're caught up in what we all call...

I got you, I got you, I got you  
I did,  
Let's let's not be less than we could ever be  
Let's level up or down it just occurred to me  
I can't find what I want in anyone I see

Love is on the up now  
(Da da da da)  
Hope is on the up now  
(Da da da da)  
Level on up now  
(Da da da da)  
Don't fall behind

Hopes up  
Level on up here baby  
Never gonna let you hate me  
We're caught up in what we all call  
Love yeah  
I've been thinking lately  
Thinking of my baby  
We're caught up in what we all call...
