The Words

(Lyrics and Music by Jim Krueger)

(Sung by Dave Mason - Mariposa D'Oro)

Where do the words come from when you need them?  
They make themselves so hard to use.  
Well, I wouldn't have a date with the blues, if I could  
only find the words

Well, my friends all know that I love them, and  
My family always brings me home, and I hold  
Nothing up above them.  
Kin and clan is all that I am.

I would shout out my story with a heavenly glory  
If I could only find the words  
If I could only find the words

And if I use them right, they'll help me fall asleep  
tonight  
So, I guess I'll have to write a few,  
'Cause nothing short of words will do.

I would shout out my story with a heavenly glory  
If I could only find the words  
If I could only find the words

Where do the words come from when you need them?  
They make themselves so hard to use.  
Well, I wouldn't have a date with the blues, if I could  
only find the words

What is it like Captain Steinbeck?  
Do you worry 'bout the things you miss?  
Well, I do, and I hurry like a fool from 9 to 5,  
Trying to keep my words alive.

I would shout out my story with a heavenly glory  
If I could only find the words  
If I could only find the words
