"Come Rock Of Ages"

Visit "[Come Rock Of Ages](#)" on MotoLyrics.com

Did you see the signs has the time begun

It was the seventh star of the seventh sun

Round and round this circle turns

The planets all align this is the time

This is the hour we've waited for the sign

Come rock of ages

We worship at your feet

Now is the time

The circle is complete

Come rock of ages

Now the circle turns on the wheel of life

Will the lines converge to a point of light

Round and round we gather here

The planets all align this is the time

This is the hour our destines entwine

Come rock of ages

We worship at your feet

Now is the time

The circle is complete

Come rock of ages

It was the seventh star of the seventh sun

Did you read the signs has the time begun

Round and round this circle turns

The planets all align this is the time

This is the hour we've waited for the sign

Come rock of ages

We worship at your feet

Now is the time

The circle is complete

Come rock of ages

We worship at your feet

Now is the time

The circle is complete

Come rock of ages

Rock of ages
