"Demolition Alley"

Visit "[Demolition Alley](#)" on MotoLyrics.com

Ive been working all day down on demolition alley
Looking down the barrel of a twelve gauge gun
Digging up rocks in this God forsaken valley
Breaking my back in the mid day sun

Chorus

I served my time I lost my wind

On demolition alley

Demolition alley

Days go by but it feels like a lifetime

Dragging me down like a ball and chain

Doing my time just walking in a straight line

Its the only thing I know just to handle my pain

Chorus

Guitar solo

One of these days Im just gonna have to break free

Taking my chances living on the run

There's only one man that can ever really stop me

Hes looking down the barrel of that twelve gauge gun

Chorus

Guitar solo
