I'll climb the tallest mountain
I'll swim the deepest sea
I'll do anything, baby
Anything to set you free
If you're lost and I can't find you
Somewhere in the night
If you need me there beside you
To make you feel alright
If you're standing in the darkness
I can show you light
There's nothing stands between us
That love can't make right
Just come to me
And I'll be there
And I'll do it all for you
Yes I'll do it all, I'll do it all for you
You know I'll do it all for you, baby
Yes I'll do it all, I'll do it all for you
When your world is full of sadness
And the feeling just goes on and on and on...
You know I'll be there
If you're standing on the very edge
And scared of looking down
I'll be there to catch you baby, when you take a fall
If you're trapped inside your heartache
And you can't find escape
Then come with me and break away
It don't matter what they say
Just come to me
And I'll be there
And I'll do it all for you
Yes I'll do it all, I'll do it all for you
You know I'll do it all for you, oh yes, I'll do it just for
you baby
Yes I'll do it all, I'll do it all for you
And I'll do it all for you
You know I'll do it all, I'll do it all for you, baby
Yes I'll do it all for you, oh yes I'll do it just for you baby
And I'll do it all, I'll do it for you
