

Saxon "Running Hot"

Visit "[Running Hot](#)" on MotoLyrics.com

Catch me if you can and tame the beast
Should I leave you burning in the heat
Kick the throttle down, I'm on fire
It turns me on to feel the engine's beat

Take it to the highway (*)
On the open road
I want to feel your power
Screaming into overload
She's running hot, she's hot

Coming out of nowhere, moving fast
I gotta keep the feeling

Make it last
Let me feel your body
I'll explode
Together we will run to overload

(Repeat *)
