She's got her own lie for me now
I've got my own story to write down
No time for a word from her mouth
But I'd listen for a chance to get out
No blame for another's game
It feels good, but it hurts the same
Somehow I like the pain
It's easier than love to understand...

It's all in your head
You're better off dead
It's all in your head

She's got no time for me now
It's better to be hurt than let down
What would I do if aloud?
I'd look for another chance to get out
Some things will never change
The worst things just stay the same
It's over, again and again
Did we do it all in vain?
There's no way out of here...

It's all in your head
You're better off dead
It's all in your head

I don't even want to know your name
I don't ever want to see your face again
I don't even want to know your name
I don't ever want to see your face again
Get out, get out, get out of my head
Get out, get out, get out, get out of my head
Get out, get out, get out of my head
Get out, get out, get out, get out of my head

It's all in your head
You're better off dead
It's all in your head

Get out, get out, get out of my head
Get out, get out, get out, get out of my head
