Where's the letter?
Where's the rewind?
Where's the passion?
Keep that in mind
Keep that in mind...
Where's the letter?
Put it all down
Where's the rewind
You can't turn it around
Where's the passion
You can't go back now
Keep that in mind

I just want to end this
It's better to end this then
Try and push rewind
I never wanted anything...

Where's the letter?
Where's the rewind?
Where's the passion?

Keep that in mind
Keep that in mind...
It's not my problem
It's not my problem
It's not my problem
It's not my problem
It's not my problem

I just want to end this, end this
It's better to end this then
Try and push rewind, rewind
I never wanted anything...
I just want to end this, end this
It's better to end this then
Try and push rewind, rewind
I never wanted anything...
