Dead on arrival
So she says to me
Living in denial
But it's bittersweet
With the finger on the trigger
The pulse fades away
But I know I'll forgive her
She always gets her way

Look at what you can't touch
Touch what you can't taste
Taste what you can't take away
Temptation gets the best of me
The best of me

This can't be the ending
Where do we start?
You know I'm pretending, baby
I know you aren't

Look at what you can't touch
Touch what you can't taste
Taste what you can't take away
Temptation gets the best of me
The best of me

You've got those cryptic eyes
I thought the devil was on my side
I was wrong
I was wrong

Look at what you can't touch
Touch what you can't taste
Taste what you can't take away
Temptation gets the best of me
