I find you weeping you're so afraid  
Don't hush I want you to suffer  
The grin she tried to wear ignored the pain  
Your gift of agony  
You stole her sanity  
How dare you sleep at night  
How dare you live  
When you know she doesn't even breathe  
Your feathers were beautiful  
But it hollowed her skin  
Along with the stars  
How dare you sleep at night  
How dare you live  
When you know she doesn't even breathe  
I find you weeping you're so afraid  
Don't hush I want you to suffer  
He grin she tried to wear ignored the pain  
Your gift of agony  
You stole her sanity  
How dare you sleep at night  
How dare you live  
When you know she doesn't even breathe
