I THINK ABOUT YOU EVERYDAY Lyrics By Sayo

### Part 1

Anytime I hear your name being mentioned  
I feel like I'd loose my mind  
Anytime I hear anybody talk about you  
I feel like I'm gonna cry  
And the life is getting difficult for me  
I can do nothing without thinking of you  
And then I'm glad you promised to be mine forever  
Nothing is gonna change your mind

### Bridge

When I thought it is my last breath  
(My heart keep calling your name)  
When my family closed it's eyes  
(You opened your heart for me)  
Ooh ooh I wanna know  
(The place you're gonna be)  
Ooh ooh I wanna know  
(The place you wanna be)

### Chorus

I think about you every night and day  
I think about you when I close my eyes  
I think about you when I open my eyes  
I think about you every day

I see your picture everywhere I go  
I see your picture when I close my eyes  
I see your picture when I open my eyes  
I see your image everywhere

### Part 2

I miss all the things we ever shared with you  
I miss a bed we share baby  
I miss all the love we ever shared with you  
I really miss your kiss baby

But I'm hoping there is time I'll be with you  
So we start allover again

#### Bridge

When I thought it is my last breath  
(My heart keep calling your name)  
When my family closed it's eyes  
(You opened your heart for me)  
Ooh ooh I wanna know  
(The place you're gonna be)  
Ooh ooh I wanna know  
(The place you wanna be)

#### Chorus

I think about you every night and day  
I think about you when I close my eyes  
I think about you when I open my eyes  
I think about you everyday

I see your picture everywhere I go  
I see your picture when I close my eyes  
I see your picture when I open my eyes  
I see your image everywhere
