Visit "[Future Digits](#)" on MotoLyrics.com

Got no names anymore  
Just numbers  
A combination of digits  
Only for control

A number in your head  
Your name in their system  
Some try to hide it well  
Some show it with pride

Dead before birth  
Into competition  
Treaten like shit from that day  
And on till now

Wearing blue uniforms  
Knocking heads to pieces  
Pointing their guns  
Killing just for fun

But point that at me and I'll explode  
And take as many as I can with me
