It Never Will Come Back

Music & Lyrics by Steven Kolacny

If I should be some kind of Jesus  
I would pray for absolution and peace  
Instead of taking the nails from my wounds  
That's not what a Jesus is supposed to do

If I should be some kind of genius  
I would find a solution for us  
It hasn't been, worse than this  
So sad, such a waste of time

'cause it never will come back. (R)  
It never will come back again

If I should be some kind of coward  
I would turn my back on to you  
And hide myself from the darkness outside  
That's just what a coward is supposed to do

If I should be some kind of fool  
I would believe that your love was for real  
Look now what's left of our dreams So sad, such a  
waste of time

'cause it never will come back. (R)  
It never will come back again

Your eyes  
Your little eyes  
They ask me  
Time and again  
Was this your idea?  
Your big masterplan? (x 2)
