Burning with desire and hate  
Acquiescence sealed our fate.  
Empty rooms and empty eyes  
Empty promise filled with lies.

I hate you.  
I love you.  
Our last fight, our last fight.

Tortured by the things you said  
Vice-like grip around my head.  
Nothing left to lose or gain.

I abhor.  
I adore.  
Our last fight, our last fight.

I'll grow thorns to keep me safe  
To protect my crumbling faith.  
Bitter, bitter. Sweet no more.  
Nothing left worth fighting for.

I loathe you.  
I love you.  
I hate you.  
I loved you.  
Our last fight, our las fight. (4x)
