Music by Steven Kolacny, Lyrics by Vincent Neyt

Shall we dance by candle light?
watch our paper plane take flight?

Let it drift into the night
see it disappear from sight

Oh you, staring secretly at you (Ref)
Oh you, dreaming secretly that soon
I will carry you away
in my private paper plane
for two
for two

Rollercoaster upside down
from the clouds into the ground
for you
for you

Trying hard to read your mind
in the currents of your eyes

Oh you, staring secretly at you (Ref)
Oh you, dreaming secretly that soon
I will carry you away
in my private paper plane
for two
for two
