Music by Steven Kolacny, Lyrics by Jo Dawson

Splinter, you infected my mind.
Eyes might be closed, but I'm not blind.

Splinter, swallow your lies
You, with your 'fuck-me' eyes
Tormentor in disguise.

Splinter, under my skin
Burrowing deeper in
Where I end you begin.

Pain if I cut you out
Pain if you stay, no doubt.

Splinter inside me,
With your warped duplicity
Shard of cruelty.

Splinter parasite
Taint my day and haunt my night
There's no peace in sight.

Splinter in my skin.
Splinter inside me,
In too deep to set me free.

Splinter inside me.
Splinter parasite,
Taint my day and haunt my night.

Splinter in my skin, burrow deeper in, I end you begin.

Splinter inside me, warped duplicity, shard of cruelty.

Bur-row in
to my skin.
