

## Scapegoat "Manatee"

Visit "[Manatee](#)" on MotoLyrics.com

In a perfect world  
All people would agree  
That given the circumstance we better start to believe  
We all are just running  
From something we'd never foresee  
The ending of humanity, yea

In a perfect world  
All people would agree  
That given the circumstance  
We better get the fuck on our feet  
Because we all are just running from something  
Something we could never foresee  
The ending of humanity  
We'll be swimming with the manatee

Our faiths have torn this world apart  
We've been misguided, misdirected, misinformed by  
those elected  
And now it's time to take a stand abroad  
Praise Jesus, praise Buddha, praise Allah, praise God

Well I'm making amends with myself  
To better discern myself  
For the better of my own health  
I'm learning to love myself  
While digging up the dirt I've been dealt

Cause we all are just running from something,  
Something we could never foresee  
The ending of humanity  
We'll be swimming with the manatee

Black or white  
Yellow, red  
We're the same  
It's time to dust off them water wings

Black or white  
Yellow, red  
We're the same  
It's time to dust off them water wings

Well I'm making amends with myself  
To be discern myself  
I'm making amends with with myself  
For the better of my own health

Well I'm making amends with myself  
I'm making amends with myself  
I'm making amends with myself  
I'm making amends with myself

For the better of everyone's health  
(I will face myself)  
It's best we amend with ourselves

In a perfect world all people would agree  
That given the circumstance we better begin to believe  
Cause we all are just running from something  
Something we'd never foresee  
The ending of humanity  
(Where you gonna run?  
What you gonna do?  
Where you gonna turn?  
When are we gonna learn?)  
We'll be swimming with the manatee  
In a perfect world we'll be  
(Where you gonna run?  
What you gonna do?  
Where you gonna turn?  
When are we gonna learn?  
You better begin to believe it baby)  
In a perfect world we'll be  
In a perfect world we'll be  
You and me in eternity
