I never thought I'd love somebody, somebody
The way that I'm in love with you
And every time I think about us
It breaks my heart in two
Little pieces

So don't, don't be so cruel
Don't get me hanging on
Don't, don't be so cruel
Don't leave me all alone
I swear I'll be good to you

The days keep getting longer
The nights just seem so cold
I wish you were here to hold me
To ease my troubled soul
So please don't

Don't, don't be so cruel
Don't keep me hanging on
Don't, don't be so cruel
Don't leave me all alone
I swear I'll be good to you

I feel like you don't understand me
If you want it too
I'm not that complicated
Just a simple man begging you
To stay true

So don't, don't be so cruel
Don't keep me hanging on
So don't, don't be so cruel
Don't leave me all alone X 2
I swear I'll be good to you.
