"If i"

If I could stay and play my guitar for you
If I could stare into your eyes for days
If I could whisper I love you all night long
If I could only do these things, I would, I would

If I could I would
If I could I would
If I could I would
If I could I would

If we could stay indoors while it snows
If we could touch our souls in theaters
If we could stay and play board games today
Roll the dice for foreplay,
If we could only do these things, we would

If I could I would
If I could I would
If I could I would
If I could I would

Shall we boast we should
She's the ghost in the woods
If God would He could
Don't say good-bye
No no no
Don't say hello
Let us not try to be so, to be so - oh, oh

Kismet we will, cosmic we shall
Someday be there but today we can say
That tomorrow's the day
Where we'll not have to lay and say

If I could I would
If we could
