I leave it all behind  
If I cannot speak my mind  
My conscience defies are no reason  
You dream of reality  
But I dream so constantly  
Can't you see it's a grand illusion?

I wanna step inside my baby  
I wanna take each day one whole hour at a time  
I can't scream so loud when I stand my ground  
Cause I gotta ask when am I done waiting?

I know just what its like

To wait for a voice inside  
To appear and sound formation  
And when you think you see  
Someone who looks like me  
Be aware it's a grand illusion

I wanna step inside my baby  
I wanna take each day one whole hour at a time  
I won't scream so loud when I stand my ground  
Cause I gotta ask when am I done waiting?
