I'm gonna love you I'm gonna love you
Till the stars in the skies start flickering out above you
Girl I'm gonna love you I'm gonna love you
I'm gonna love you I'm gonna love you
I'm gonna rock you in the cradle of a love so warm
And shelter you from every storm
That comes along and tries to cloud your sky
Trust in me cause I'll be standing by

I know you've had your share of ups and downs
And you feel just like you're in a circus running from
the clowns
The times we live in make you wonder which way you
should go
But if you take a chance on me girl I want you to know

I'm gonna love you I'm gonna love you
Till the stars in the skies start flickering out above you

Girl I'm gonna love you I'm gonna love you
I'm gonna rock you in the cradle of a love so deep
That you can close your eyes and sleep
Through the darkest night without a care
Ccount on me and baby I'll be there

I know you'd like to run and hide your face
Cause I guess it seems like all your dreams just never
fall in place
It's hard to live on promisses that vanish in the night
But if you trust me just a little I can make it right make it
right
I'm gonna love you I'm gonna love you
Till the stars in the skies start flickering out above you
I'm gonna love you...
