Well I'm knee deep in loving you
done got deeper than I wanted to
It'll probably drown me before I'm through
But I done got knee deep in loving you

And Lord I'd wade your water just enough to cool me
down
Wet my feet and find the way to some dryer ground
But I keep on a gettin' deeper and there's just one rain
ago
Too late I find I'm caught up in your undertow

Cause I'm knee deep...

Everybody's saying you're not the staying kind
Ain't it like a natural fool to think you will this time
It's too late for changing this feeling down in me
I'm standing here with more than just sand on my feet
Cause I'm knee deep...
Well I'm knee deep...
Well I'm knee deep...
