They hate everything today,
All they get is fed up.
And I can hear what they say,
I wish they's finally shut up.

Cause they don't like the way I walk,
The walk I talk,
The thoughts I think,
Or the words I speak.

Cause I'm Impeached -
From society,
They say -
There's not a chance for me,
Questioning -
Authority,
And they try to tell me how to live my life.

Impeached -
From society,
They say -
There's not a chance for me,
Questioning -
Authority,
And they try to tell me how to live my life.

But we won't go away,
Cause we're the scars that won't heal,
I'm Impeached!
