Stand up!
You know you have the right too!
Speak up!
For the things you that you believe!
And we lift off!
And they will stab you in the back over again
Take your integrity

How long will you let this go on
They're drowning you in fear

Speak up!
Your voice just isn't breaking through
It's time now!
It's gone on way too long
As we lift off!
They will tear you into little pieces
I think there is something wrong

How long will you let this go on?
They're drowning you in fear

You're letting your hopes go straight to hell
And i know the end is near

The time will come
The time will come
The time will come
You will be sorry for what you've done
The time will come

How long will you let this go on?
They're drowning you in fear

You're letting your hopes go straight to hell
And i know the end is near

You say you're sorry
For what it's worth
