Heartlessly abandoned  
At the highest peaks of chaos  
Staring at the only path  
My only path goes nowhere  
A loss so overshadowed, so in vain  
An atom spiraling through darkyears of pain  
I'm on my way to meet hell deep below  
Gracefully I am devoured  
I see her break and crush and bastardize  
Sudden escape from the upheaval  
Leaves like porcupines pierce her skin  
Soft, warm juices pour on my palms  
Her contagious sensual mystique  
Overwhelms me  
I can't assimilate  
Just cannot comprehend  
This Essence Heaven-Sent  
Outbalanced and painless  
I sparkle with my empress  
In an Essence Heaven-Sent  
(I simply long to feel  
What's too true to be real)  
I must meet hell down deep inside  
To break and crush all the inherent lies  
Together we'll untie the vast intrigues  
Together... we will control our lives !
