Swarming in doubt, you suffer of being  
Sculpting a spirit, carving a soul  
Your every fiber is infiltrated by pain  
Not the last time I will torture  
Not the last of my attacks  
Sole on this surface  
I will slip between the cracks  
...and sever!  
Free to heal you  
Free to kill you  
All your fear could not destroy  
My source of power unwithstood  
This current through the nerve  
Sectioning the endless cycle of life  
Free to heal you  
Free to kill you  
Free to heal or to kill
