Mother why has it come to this
Why is this noose wrapped around my neck
What can i do before i fall?
I look back and i have no steps
My memory is fading with one regret
You sit at home and cry for me
But you did no wrong
You did your best
So now you carry on
(it seems I'm going nowhere)
But at least I'll get there fast
(wondering what the purpose of this is)
And how much longer will it last
(will it last)
When you're in a state of devastation
Where do you run?
When all you know is aggravation
Where do you run?
When your life's complete complication
Where do you run?
When you're in a state of devastation
Where do you run?
(left alone with a razor he said)
Left alone with a razor he said
(mother help me)
Left alone with a razor he said
Mother HELP ME
Help me mother please
