When the moon slips over  
The sun and the day turns into night  
Dead will start their symphonies  
They came like shadows  
Like whispers from the darkest forest  
Across the sea with the mark of immortality  
Elements of life  
All are drowned into darkness  
Under deepest night  
All the symbols and signs  
Fortuning from the dark desire

And the sun cried blood for the sake of the mankind  
So glorius race soon it will fade away  
Oh morning dusk and great sacrifices  
Take life away from the horror the pain  
Take life away...  
Voices from nowhere turning sane into insane  
It shall take control  
Like it's been for years so long

Sun will no more rise  
Life begins to die  
Stillbirth  
Into  
Doomed  
Generation
