

## Sceptic "Ancient Portal"

Visit "[Ancient Portal](#)" on MotoLyrics.com

Dark depths of earth are hidden in secrecy  
Which lies in door to another reality  
Gate left here by an Ancient Entity  
Preserved in time for all to see

[chorus]  
Wastelands manufactured  
By Gods from the skies  
No one can live here  
No matter how hard he tries

[chorus 2]  
And then appears an ancient portal to another  
dimensions  
After million years of sleeping , destroyed all  
expectations  
Unusual monument of an ancient civilization  
Has started events from beyond human imagination

The natural resources disappeared without trace  
All human beings died with twisted face  
The whole known world lost under the sands  
There's no life forms left in these lands

[Solo: Jacek]

Origin of the unknown  
And dreams you dream  
Should be thrown - away  
The only choice is scream

On this burnt ground  
Molecules dispersed long ago  
An entire planet  
Exterminated by unknown foe

[repeat chorus]  
[repeat chorus 2]
