Feel this pain , it strikes you once again  
Taking control of your - mind  
Crying for help , whispering prayers  
You are so weak and helpless

[chorus]

We who ruled the waters , the earth and sky  
Are now to be destroyed (disappear without a sign)  
Why important no more is our will to be  
Isn't it our own ingenuity to create our destiny

[Solo: Jacek]

Don't we deserve a better way to die

And where is God , his miracles when needed  
Your faith appears and disappears  
When it becomes uncomfortable  
No more to say

[repeat chorus]
