I could have got through anytime  
Cold, lonely puritan  
What are you fighting for?  
It's not my security  
It's just an old war  
Not even a cold war

Don't say it in Russian  
Don't say it in German  
Just say it in broken English  
Just say it in broken English

Lose your father, your husband  
Your mother, your children  
What are you fighting for?  
It's not my reality  
It's just an old war  
It's not even a cold war

Don't say it in Russian

Don't say it in German  
Just say it in broken English  
Just say it in broken English

What are you fighting for?

I could have got through anytime  
Cold, lonely puritan  
What are you fighting for?  
It's not my security  
It's just an old war  
It's not even a cold war

Don't say it in Russian  
Don't say it in German  
Just say it in broken English  
Just say it in broken English

What are you fighting for?
