whisper!  
she talks in a whisper...  
Stumbling down that empty road again  
There's a question mark left hanging in the air  
Thinking about nothing in particular  
I hear a bang, bang, bang, bang,  
Knock, knock on the wall  
Never going to get those secrets out of you  
No I'm never going to let that moment pass me by  
Will you ever see a reason to walk down that road  
again  
Where the truth looks at you right between the eyes  
Moves like an angel  
And she talks in a whisper  
Try so hard just to communicate  
But theres nothing I can do  
Theres nothing I can say at all  
Words of reason seem to complicate  
Might as well bang, bang, bang,

My love against the wall  
Never going to get those secrets out of you  
No I'm never going to let that moment pass me by  
Will you ever see a reason to walk down that road  
again  
Where the truth looks at you right between the eyes  
Moves like an angel  
And she talks in a whisper  
Save your breath, don't waste your words, ?  
[x7?]  
Moves like an angel  
And she talks in a whisper  
Never going to get those secrets out of you  
No I'm never going to let that moment pass me by  
Will you ever see a reason to walk down that road  
again  
Where the truth looks at you right between the eyes
