

Schnell Fenster **"White Flag"**

Visit "[White Flag](#)" on MotoLyrics.com

The line of least resistance - is so easy to take
And the cries of total ecstasy - so easy to fake
Talking to your conscience on the telephone
It's a one way conversation with the dial tone
I said hang it up, won't you give it up
It's been a long time coming now admit defeat
Chuck it in, you could never win
You know I've got you covered
Now it's time to retreat
Fly the white flag of surrender
Raise it up
Fly the white flag of surrender
Beaten to submission at the point of a sword
Running uphill backwards with the rebel horde
Where's the voice of mercy tell me where can it be
I'm tired of laying siege, don't you see
I said hang it up, won't you give it up
It's been a long time coming now admit defeat

Chuck it in, you could never win
You know I've got you covered
Now it's time to retreat
Fly the white flag of surrender
Raise it up
Fly the white flag of surrender
Fly the white flag of surrender
Raise it up
Fly the white flag of surrender
I said chuck it in, you could never win
You know I've got you covered now it's time to retreat
Hang it up, won't you give it up
It's been a long time coming now admit defeat
Fly the white ?
Fly the white flag of surrender
Raise it up
Fly the white flag of surrender
I've got you surrounded.
Fly the white flag of surrender
Raise it up
Fly the white flag
