

School For The Dead

"Got It All"

Visit "[Got It All](#)" on MotoLyrics.com

School Gyrls:

We just got it all, got it all, got it all

Monica:

I see you watching, now what you like

Don't you wish you were more like me tonight?

You flash your paper, I roll my eyes

Ladies tell me what the hell is up with all these guys

Natalie:

Everytime we show up to the spot baby all well

We can't keep these boy popping and bursting 'till the
song's done

Sade:

You know just what we need, what we like

But we aren't hearing that tonight, tonight

School Gyrls:

We don't need nobody, we just need ourselves

We don't need your money, go spend that on someone
else

We just got it all, got it all, go it all

We just got it all, got it all, go it all

We just got it all, got it all, go it all

We just got it all, got it all, go it all

Rae:

You wanna impress me, then slow it down

'Till you're telling me you think you run this town

You're in these red lights, I know this dream

Keep talking to me all night, I don't know his name

Lauren:

We just came to dance, turn up the music got me

feeling right

All my people know it, I can't help it get your feelings

right

Sade:

You know just what we need, what we like
But we aren't hearing that tonight, tonight

School Gyrls:

We don't need nobody, we just need ourselves
We don't need your money, go spend that on someone
else

We just got it all, got it all, go it all
We just got it all, got it all, go it all
We just got it all, got it all, go it all
We just got it all, got it all, go it all

Sade:

We're not impressed about what you have
We turn on every single night you are about to ask
So tell me something that I ain't heard
And get your hands off me 'cause I ain't dirt

And you're ain't doing another woman I like do
I like do everytime I do like I do
Tell me what you got, I'll tell what it is
Baby Imma get right back to you

We just got it all, got it all, go it all
We just got it all, got it all, go it all
We just got it all, got it all, go it all
We just got it all, got it all, go it all
