Periscope, if there's a better way let me know what I  
should do  
Telescope, you are far away, but it's ok 'cause I can still  
see you  
This trip has just begun  
Getting over it is half the fun

Microscope, if there's a better way to get close let me  
know what I should do  
Kaleidoscope, is there a better world than this one  
where I'm surrounded by you  
This trip has just begun  
Getting over it is half the fun

Periscope, close your eye  
This is the moment you've been waiting for  
Periscope, close your eye  
This is the moment you've been waiting for  
There's no better place that I know  
Than sitting in the car  
While you're cleaning off the snow

This trip has just begun  
Getting over it is half the fun

Periscope, close your eye  
This is the moment you've been waiting for  
Periscope, close your eye  
This is the moment you've been waiting for

There's no better place that I know  
Than sitting in the car  
While you're cleaning off the snow

Spirograph, we go round and round but our paths will  
never meet  
Spirograph, we go round and round but our paths will  
never meet  
Spirograph, we go round and round but our paths will  
never meet  
Spirograph, we go round and round but our paths will  
never meet
