Those rhinestones turned to diamonds and those  
diamonds soon got old  
I had everything that you could buy to have but not to  
hold  
But all that glitters is not gold and when love's lost it's  
shine  
I had million dollar memories down to my last dime  
Million dollar memories down to my last dime  
Honky tonks and whiskey Lord they'll do it every time  
The day she found another I almost lost my mind  
And my million dollar memories are down to my last  
dime  
(Play it Pig)  
[ piano ]  
Those limosines and chauffers they soon fell by the  
way  
Like that mansion down in Dallas Lord I lost the other  
day  
Happiness is gone now there's nothing left but time  
And my million dollar memories are down to my last  
dime  
Million dollar memories...  
Yes my million dollar memories are down to my last  
dime  
(Think about that honey)
