

David Allan Coe "Sweet Vibrations"

Visit "[Sweet Vibrations](#)" on MotoLyrics.com

Ain't no sense in crying, Lord I'd rather see you smile
Come down from the city life and stay with me a while
There's so much that nature wants to share with you
and me
Put your hand in mine and let this old world set us free

Up on the mountain, down in the valley
Living' on sweet vibrations, some folks call it love
Up on the mountain, down in the valley
Living on sweet vibrations, some folks call it love

Come out to the country, find your peace of mind
Leave that dirty city somewhere way behind
We found something out here, you'll find something
out here
Looked for so long, never been so happy, never sang a
happy song

Bo came by to see us, he's a friend from days gone by
Danny played some guitar licks that made me want to
cry
Old friends from California called us on the telephone
I got no time for misery, Lord, no time to be alone
