On the outer limits, he will walk alone (x3)
He will walk alone; yeah, yeah, yeah, yeah!

I can't believe the way he's vibing me
With his mechanical arms and legs and feet
I can't believe the way he's vibing me
Can't you see this angry robot's got a problem with me?

He's got a problem (x4)

I stand here all alone, all by myself
Oh my god! I haven't slept in days, you know!
I stand here all alone, all by myself
Oh my god! I haven't slept in days, you know!

He's coming to get you (x8)
His name is Vincent!

I can't believe the way he's vibing me
With his mechanical arms and legs and feet
I can't believe the way he's vibing me
Can't you see this angry robot's got a problem with me?

Want to see his mechanical dance? (x3)
La la la la la la dance!

I stand here all alone, all by myself
Oh my god! I haven't slept in days, you know!
I stand here all alone, all by myself
Oh my god! I haven't slept in days, you know!
