### "Borrowed Time"

Visit "[Borrowed Time](#)" on MotoLyrics.com

Ohhhh...is it any wonder  
The light beside obligations, can't feel so good  
It seems that sinners make the world go round  
But hebrews are the same, misunderstood

I will find a road without a destination  
I'll buy the world around that's on a dime  
Admit, make a shortcut, it's easy, won't be wasted  
anymore  
A second spared with you is borrowed time

Ohhhh...let's get this over with  
While I still got ability, to fake it  
Everything feels dark in this morning light  
With the little borrowed time, we just might make it

I will find a road without a destination  
I'll buy the world around that's on a dime  
Admit, make a shortcut, it's easy, won't be wasted  
anymore  
A second spared with you is borrowed time

I will find a road without a destination  
I'll buy the world around that's on a dime  
Admit, make a shortcut, it's easy, won't be wasted  
anymore  
A second spared with you is borrowed time
